FUTURE READY AI · SCHOOL LEADERSHIP

School Leaders' AI Literacy Guide

A practical starting point for responsible AI literacy, Grades 3–12

Andrea Davis-Baptiste
Founder and Lead Learning Strategist

THE PURPOSE OF AI LITERACY

Learning goals guide technology choices.

AI LITERACY BUILDS

Knowledge.
Habits.
Judgment.

01
Question outputs

02
Protect information

03
Create responsibly

04
Keep people accountable

CURRICULUM FRAMEWORK

Six curriculum pillars

1

AI Foundations

2

Creativity and Innovation

3

Responsible and Ethical AI

4

Prompting and Communication

5

Critical Thinking and Media Literacy

6

Digital Citizenship and Future Readiness

GRADES 3–12

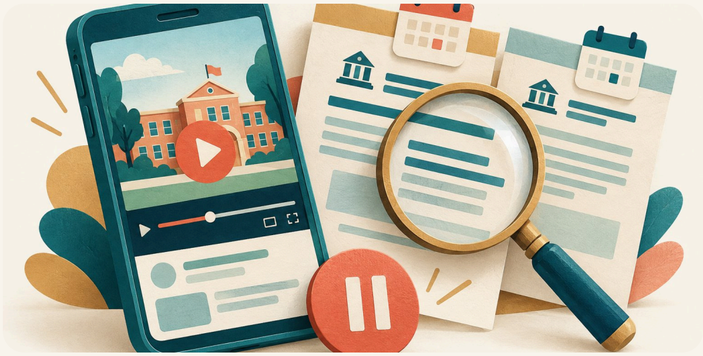

A developmental learning pathway

GRADES 3–5

AI Discoverers

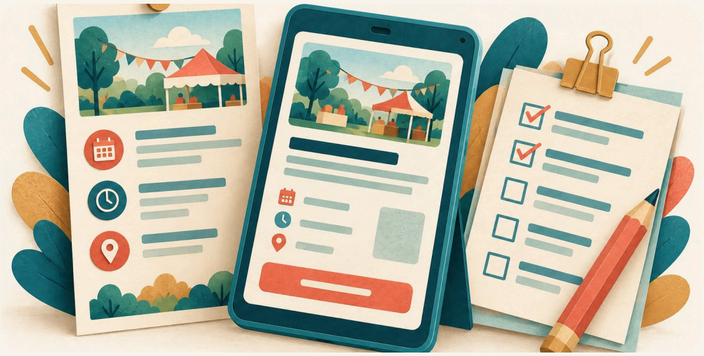

Notice patterns and check claims with adult guidance.

GRADES 6–8

AI Explorers

Investigate sources and explain responsible sharing choices.

GRADES 9–12

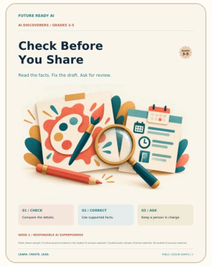

AI Innovators

Evaluate evidence and defend accountable decisions.

AI Entrepreneurship extends high-school learning through needs, value, risk, and a testable pitch.

IN THE CLASSROOM

Selected classroom samples

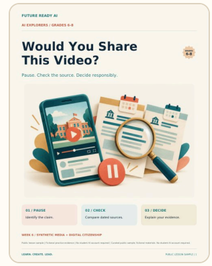

Grades 3–5

Check Before You Share

Grades 3–5

Pattern Detectives

Grades 6–8

Would You Share This Video?

Grades 9–12

Defend a Responsible Prototype

Grades 9–12

Who Is Responsible When AI Makes a Decision?

Grades 9–12

Pitch the Idea and Its Limits

LEADERSHIP RESPONSIBILITIES

People retain final authority.

Review.

Correct.

Pause.

Approve.

Name the owner and the evidence of follow-through.

01 Vision

02 Policies and expectations

03 Approved tools

04 Educator preparation

05 Family communication

06 Student privacy

07 Accessibility and inclusion

08 Meaningful human oversight

SCHOOL AND DISTRICT READINESS

Six domains, rated on evidence

1. Leadership and vision
2. Curriculum and instruction
3. Educator capacity
4. Policy, privacy, and governance
5. Equity and access
6. Measurement and improvement

CLASSROOM PRACTICE

Responsible learning design

LESSON ARC

Launch · Explore · Explain · Create · Reflect · Extend

01

Tell It

Disclose AI help.

02

Limit It

Define permitted data and actions.

03

Check It

Verify important outputs.

04

People Decide

Name the reviewer and decision owner.

IMPLEMENTATION

A proposed 90-day starting plan

DAYS

1–30

Listen and assess

- Gather perspectives.
- Review current use.
- Define learning goals.

DAYS

31–60

Prepare and design

- Select a pilot group.
- Prepare educators.
- Plan access and safeguards.

DAYS

61–90

Pilot and learn

- Collect student work.
- Review feedback and risks.
- Revise, stop, or expand.

Local readiness and approvals determine the pace.

FOR DISCUSSION

Questions for the leadership team

Learning and participation

- What should students demonstrate?
- Which tools fit the age and goal?
- What access supports are needed?
- How will families be included?

Review and responsibility

- Who verifies important outputs?
- What data and actions are excluded?
- How can concerns be corrected?
- Who can pause use?
- What is the fallback?

Record owners, safeguards, and a review date in the pilot worksheet.

MEASURING SUCCESS

Evidence of sound implementation

Evidence before expansion.

Student learning

- Explain AI concepts.
- Verify claims and identify limits.
- Show independent reasoning.
- Justify responsible decisions.

Implementation practice

- Approved uses and access supports.
- Meaningful review and correction.
- Feedback that improves practice.

NEXT STEPS

A focused first step

1	Choose	One learning goal and a manageable pilot.
2	Plan	Record the scope, owner, and safeguards.
3	Review	Use evidence to revise, stop, or expand.
