

Consultant Capability Sheet

High school AI literacy, curriculum and implementation support

Andrea Davis-Baptiste

Learning Strategist | AI Literacy | Instructional Technology

Future Ready AI helps schools build student judgment, educator confidence and career-connected AI literacy through a structured, responsible approach.

WHAT WE PROVIDE

- 01 Readiness assessment**
Identify strengths, gaps, risks and practical starting points.
- 02 High school curriculum**
Case-based lessons in bias, privacy, media literacy and human oversight.
- 03 Educator learning**
Practical guidance, modeling and classroom-ready resources.
- 04 Pilot implementation**
Plan, customize, launch and evaluate focused pilots.
- 05 Responsible-use consultation**
Support integrity, privacy, equity and implementation safeguards.
- 06 Career and CTE integration**
Connect AI literacy to authentic problems and workforce pathways.

RELEVANT EXPERIENCE

- 17+ years across K-12 learning, instructional design, technology adoption and educator development.
- District-level experience supporting technology implementation in an organization serving 600+ schools.
- Direct professional learning support across 35+ schools; more than 1,000 educators reached.
- Professional learning, microlearning, e-learning and adoption resources for educators and school teams.
- Computer science education, instructional technology, leadership and change enablement.

FLEXIBLE ENGAGEMENT OPTIONS

Classroom demonstration

Teacher-team or department pilot

School or district readiness engagement

Human-centered. Classroom-ready. Career-connected.

Begin with a manageable scope; expand based on evidence and district priorities. People retain judgment and accountability.
