

Would You Share This Video?

GRADES
6-8

Pause. Check the source. Decide responsibly.

01 / PAUSE

Identify the claim.

02 / CHECK

Compare dated sources.

03 / DECIDE

Explain your evidence.

WEEK 6 / SYNTHETIC MEDIA + DIGITAL CITIZENSHIP

Public lesson sample | Fictional practice evidence | No student AI account required | Curated public sample; fictional materials. No student AI account required.

WEEK 6 | SYNTHETIC MEDIA + DIGITAL CITIZENSHIP / LOOK + DISCUSS

Would You Share This Video?

GRADES
6-8

Use evidence to explain whether you would share, check, or stop.

One claim. Three checks. Your decision.

THE CLAIM

What does the video ask you to believe?

THE SOURCE

Who posted it? Where is the original?

THE CONTEXT

Do the dates and school details match?

YOUR GOAL

Explain whether you would share, check, or stop - and what evidence you still need.

A short video appears to show the principal announcing that school is closed tomorrow. It came from an unfamiliar account. The video may be altered; appearance alone cannot settle that question.

Practice evidence: read the date and source

A / VIDEO POST

Account: @SchoolUpdateNow
Posted: March 6, Year X
Claim: "School is closed tomorrow."
No original source is linked.

B / SCHOOL NOTICE

Official school practice notice
Dated: March 6, Year X
"March 7 classes follow the regular schedule."

What conflicts? What must you check before sharing?

WEEK 6 | EVIDENCE + UNCERTAINTY / VERIFY

Would You Share This Video?

GRADES
6-8

Check who posted it, when it was posted, and what other sources say.

Corroboration: evidence from another source that checks the same claim.

Provenance: where media came from and how it was created or changed.

C / INDEPENDENT CHECK

A fictional city youth-center bulletin, dated March 6, lists its March 7 after-school pickup at the school as scheduled. It did not copy the video. It gives related context, but it does not independently establish whether classes are open.

WHAT IS STILL MISSING?

No original recording, creator record, edit history, or direct school response is supplied. The unfamiliar account has no verified link to the school. The official notice conflicts with the post, but could require a fresh check if an announcement changed later.

What does the video claim? What disagrees? What is still unknown?

Who or what would you check next to find out whether school is open?

Do not call the video proven fake just because it looks unusual. Verify the closure claim and verify the media's origin as separate questions.

WEEK 6 | PORTFOLIO ARTIFACT / DECISION RECORD

Would You Share This Video?

Record your evidence and decision. Say what you still do not know.

Original source / account	What is known about the account and the original recording?
Official / primary source	What does card B support? Check date and scope.
Independent corroboration	What does card C support, and what can it not establish?
Context / date / location	Does "tomorrow" mean the same date in every record?
Provenance / edit clues	Which clues are available? Which records are missing?
Share / check / stop	Defend the decision using the evidence, not the video's appearance.

The responsible message I would send is...

Reflect: What do I understand better? What question remains?
