FUTURE READY AI

9-12

AI ENTREPRENEURSHIP

Pitch the Idea and Its Limits

LEARN. CREATE. LEAD.

AI ENTREPRENEURSHIP | CURATED SAMPLE / LOOK + DISCUSS

Pitch the Idea and Its Limits

GRADES 9-12

Show evidence, value, a viable delivery plan, risks, and a testable next step.

An idea becomes stronger when you test it.

DISCOVER

What do people actually need?

MODEL

How will you deliver useful value?

TEST

What is still an assumption?

YOUR GOAL Pitch a useful idea while explaining its limits, costs, risks, and next test.

Your team proposes an event-summary service. Its paper prototype is ready. Customer demand, time savings, costs, and willingness to pay have not been established.

Fictional discovery notes

USER "I sometimes miss the room or time in long notices."

ORGANIZER "Details change, and corrections take effort."

PARTNER "A reusable template might already solve much of this."

What is supported? What is an assumption? What must you learn next?

AI Entrepreneurship | Original discovery-to-pitch architecture | Curated public sample; fictional materials. No student AI account required.

LESSONS 1-3 | EVIDENCE + AI FIT / DISCOVER + DECIDE

Pitch the Idea and Its Limits

GRADES 9-12

Investigate a need, compare options, and define a limited AI role.

Worth-Solving Scorecard: compare two candidate problems. Rate evidence, impact, frequency, access to people, and feasible scope from 1-4. Explain ratings; a total is not proof.

Candidates, ratings, evidence, and selected problem:

AI Fit Test: mark YES / NO / UNSURE and explain

Is there a specific task for AI?	Y / N / ?
Does it use patterns, prediction, recommendation, classification, or generation?	Y / N / ?
Is lawful, appropriate information available?	Y / N / ?
Would software, a checklist, search, or a human service work better?	Y / N / ?
Can important outputs be verified before action?	Y / N / ?
Can a person review, override, and explain the result?	Y / N / ?
Is the benefit proportionate to the risk and resources?	Y / N / ?

Role map: input / AI task / output / verification / human decision

What must AI never do alone? What is the non-AI fallback?

AI Entrepreneurship | Original scorecard criteria and seven AI Fit questions | Curated public sample; fictional materials. No student AI account required.

FUTURE READY AI · PREVIEW

This is a sample of AI Entrepreneurship (Grades 9–12)

These selected pages show how the module opens. The complete six-lesson module, teacher materials and pilot guidance are provided to partner schools.
